

The Real Meaning of Invention, The Gift and The Responsibility Therein

Kerry Harris

Mr. Kerry Harris, Chief Technology Officer at Angel 7 Industries, is our speaker for August 2011 and will speak on The Real Meaning of Invention, the Gift and The Responsibility Therein.

During his junior year at Southwest Texas State University, he attended Officer Candidate School for the United States Marine Corps and accepted a commission as a second lieutenant after graduation. After a three year tour, he transferred to the Navy to attend flight school. Upon earning his Wings of Gold, he flew P-3 Orions ensuring the safe operation, management and transport of hundreds of military and civilian personnel as well as multi-million dollar government/DoD systems and equipment.

After his military career, Kerry Harris developed advanced helmet suspension systems using his technical curiosity, instinctive design techniques and methodical testing to verify his new theories. His tenacity has resulted in enormous improvements in blunt impact attenuation as well as breakthroughs in optical systems, visor technology, miniaturized power technology and surface protection polymers. Angel 7 Industries LLC is a privately held company that includes A7 Helmet Systems, K-Armor, and A7-Optical Systems – all specializing in innovative high-tech solutions for various industries to better protect active duty military and law enforcement personnel. For more information, visit www.angel7industries.com.

Also, please take this opportunity to pay your annual dues (\$25/\$95 Corporate), thanks!
