

Inventors: Economic Miners Rita Crompton

Rita Crompton, the Inventor Lady™ and founder of The Inventors Roundtable, has been working with Inventors for more than 15 years. She thoroughly understands the inventing process and helps independent inventors successfully tee up their product for licensing.

Rita has teamed up with Michael King, host of HomeTalk, the #1 Home Improvement radio program in the U.S. with over one million listeners. Rita will host a one hour segment every week to feature independent inventors and their successes and challenges. Join us to learn more and to see if you and your product could be on the next HomeTalk show! Rita has established InventAmerica website (under construction but operable soon) for the show.

NOTE: This will be an off-site Zoom presentation. Watch it on your computer or cell phone. See www.alamoinventors.org to register for the Zoom presentation.
